Details View

GRAPHICS

Please note that the shell scheme walls are made up of panels 2.5m high divided at 1m intervals with aluminium poles. **PLEASE NOTE: the actual dimensions of each panel, for the purpose of applying full height graphics, is 963mm wide x 2352mm high.**

Please advise Pere Ramirez pramirez@labelexpo.com if you have any questions about fitting your display into your stand area. If you wish to have graphics printed to fit within your shell scheme stand, our contractor, MEROFORM, are able to provide a full range of graphical options. Please contact:

Meroform

ADDITIONAL SHELL SCHEME OPTIONS

Additional fittings and accessories for the shell scheme can be ordered using the order form in **Section 6** of the manual. All additional items are chargeable directly to the Exhibitor.

INTERIOR DISPLAYS ON SHELL SCHEME SITES

Exhibitors are at liberty to engage a contractor of their choice to carry out the construction and installation of interior displays on shell scheme stands provided that the name of the contractor appointed is submitted to the Organisers.

The official shell scheme contractors, MEROFORM, will, of course, be pleased to provide estimates for such work. Please note that all materials used for the construction of displays must be of a non-flammable nature.

PLEASE NOTE: If you are ordering any extra items such as furniture, electrics or staffing etc please ensure that you make payment to the relevant contractor in full, in advance of the exhibition, to avoid delay onsite. In India, orders are not serviced unless full payment has been received. To avoid delay onsite, please check that your payment has been received before you leave for the show and, if possible, bring proof of payment with you the show
