RULES AND CONDITIONS FOR THE ELECTRICAL INSTALLATIONS

Electrical Installations Service is an exclusive service that provides CIEC -WTC event organizers to their clients

The Organizer has to contract with Servicios Integrales WTC the electrical services required for your event with 20 days prior to the first day of assembly or earlier. This in order that the Organizer can enjoy special prices called " Advance " , for 20 days after the first day of assembly hiring event , be applied automatically and without exception the prices called " On Site

The *Operation area WTC* , will charge on check out *bill the walls plugs* needed to carry out adequate distribution and installation of outlets, lamps and sockets, the number of these items is determined by the Official Electrical Contractor CIEC -WTC.

Any cancellation or reduction of an already contracted service should be made in writing at least 20 days before the first day of the assembly , otherwise not apply any refund or be able to handle any type of credit balance applicable to the Organizer.

Office hours for hiring Electrical Installation Services for Exhibitors will be from 08:30 to 20:00 hrs Monday to Friday and from 10:00 to 18:00 on Saturdays and Sundays (except a requirement of prior service required by the organizer). This through Services Module located on the ground floor next to the access to the Maya 3 Room.

Office hours for hiring electrical installation services for the Organizer, will be in office hours from 08:30 to 18:00 from Monday to Friday. Outside of these dates and the organizer may request services Electrical Contractor representative CIEC -WTC Officer , who has to require the signature of consent by the Organizer.

The list prices of existing electrical installation services 2023 NOT INCLUDE THE CHARGED BY POWER CONSUMPTION generated by electric energy consumers fed through the facilities , this cost will be charged to the Additional Closing Organizing Services.

Under no circumstances contractors Organizer may carry out the derivation and distribution of electrical contacts of the stands , through electrical outlets previously contracted the CIEC -WTC , in the case of detecting these anomalies we will cancel the power supply immediately subsequently there to the contractor or offender must proceed to hire such services to the CIEC -WTC.

The electrical services include materials, installation and dismantle.

It does not include machine hook up.

For these services be provided electrical power once the Organiser through the Operations Coordinator CIEC -WTC approve the start of counting of energy through the wattorímetros called.

The rented equipment is exclusive property of HIR Expo Suppliers

HIR Expo is not liable for voltage fluctuation or power failure due to temporary conditions.

Se recomienda el uso de reguladores de voltaje en equipos eléctricos, CIEC-WTC no será responsable por ningún daño ocasionado a equipos, información almacenada en computadoras, máquinas de control numérico, etc. o lesiones causadas a personal no autorizado.

The organizer and exhibitors, who use these services without a contract, will pay 2.5 times the corresponding on site prices and will be responsible for any damage on the installation.

The contractor (organizer or exhibitor) will be solely responsible for damages and loss of contracted electrical equipment during the event.

If the hiring breaker for Energy exceeding the capacity of 20 kw , in the Maya and Mexica halls, Organizer has to consider the cost per connection rights according to prices published by the WTC Operations area, the above according to the required capacity. For other halls of the enclosure, the above porporcion varies directly with the required electrical load , as each room has a different capacity to provide electricity

If a special location for the contracted services is required, you should indicate it on the electrical floor layout.

Once the services have been installed, any location change will cost an extra 50%

No returns or refunds for failures in providing facilities outside CIEC -WTC apply power . This also includes any failure caused by improper load distribution by Contractors or Exhibitors of the Organizer .

For events that for special requirements the Organizing requires backup times and / or an electric range , HIR EXPO offers the exclusive service Portable power generator, In this case, the organizer must detail the conditions of the service requested , subject to Regulation operations CIEC at all times, CIEC -WTC will not be responsible for problems arriving to stand by the poor distribution in the power , because any modifications to the agreement on the joint logistics, unreported without notice , to WTC Operations area.

RULES AND CONDITIONS FOR THE PORTABLE POWER GENERATOR

The Service of the Power Generator is an exclusive service that provides CIEC -WTC event organizers to their clients.

To contract this service is indispensable written notice 15 days before the event you require this service , this in order that WTC can reserve and coordinate the installation of equipment in a timely manner .

Power Generator Service is for 12 hrs . Continuous. Subsequently charged per hour. The calculation of overtime to the first will be conducted by fractions of 1 full hour.

To guarantee this service, you need to pay with 5 days in advance.

We have several capabilities of the electric generator .

Sin más por el momento esperando contar con su preferencia, me reitero a sus órdenes para cualquier duda o aclaración.
