NOTE: It is a mandatory requirement to submit the below complete information for ALL structures.

DECLARATION of COMPLIANCE

I request that the above structure be accepted for use within the above detailed event and I hereby certify that:-

- The structure has been constructed as per the design submitted and any subsequent recorded modifications thereto.
- The final total imposed load applied by the structure to the Venue floor is within venue specification
- The structure satisfies the requirements of
 - "The Fire & Life Safety Code of Practice" and
 - "The EHSMS Regulatory Framework"

With regard to considerations for the management of its design, layout, planning, maintenance of stability, structural integrity and means and adequacy of emergency egress, is fit for intended purpose and safety in use.

* A Competent person is defined as someone with suitable qualifications, training, practical and/or theoretical knowledge and/or experience to enable them to function in a specific area of responsibility, who has the requisite ability and qualities to be capable of predicting potential hazards, the authority to take action to eliminate such hazards, and the maturity to seek such specialist advice and/or assistance as may be required to enable them to make necessary judgements based on the supporting opinions of other specialists.

For the purposes of this document, in most circumstances, this is envisaged as being the Senior person responsible for the construction of the structure to which this document relates.

ESM Events Managing and its partners bear no responsibility or liability of the stand structure stability or its installation. All responsibility is on the client /contractor /exhibitor.
