The following must be already considered in your design and submission:

- Vision panels for doors (storerooms, enclosed meeting rooms and access panels to DB boxes etc.)
- Doors may not open into the aisle / gangway
- Wheelchair access ramps (1x1m) incorporated into the platform (stands larger than 21sqm)
- Safety corner must be applied, or all corners of the platform must be rounded to avoid sharp edges
- Clear glass panels must have frosted safety strips at average eye level.
- You must provide one set of Fire extinguishers (CO2 and Water) for your stand for every 100sqm
- Gypsum Board is not allowed for any design elements.
- Only aluminum scaffold towers are allowed to be used.
- Maximum height of platforms should be 10cm/100mm as industry standard
- Only H-beam / I-beam are permitted to be used for construction of any steel structures and supports (L-metal supports for free standing totems and back walls should be 1.5x1.5m of IPE80)

PLEASE SUBMIT THIS DOCUMENT BACK TO: gpp26.standaudit@esm-events.com

KINDLY CONTACT US IF YOU HAVE ANY QUESTIONS ABOUT THIS CHECKLIST – THIS CHECKLIST SHOULD BE SUBMITTED TO US IN CONJUNCTION WITH FULL TECHNICAL PLANS AND VISUALS OF YOUR PROPOSED STAND.

Please note the Health & Safety Officer reserves the right to make any changes resulting from an on-site inspection
